Every child ....

Every child
is a promise

Every child
is a spark of hope

Every child
is an open horizon

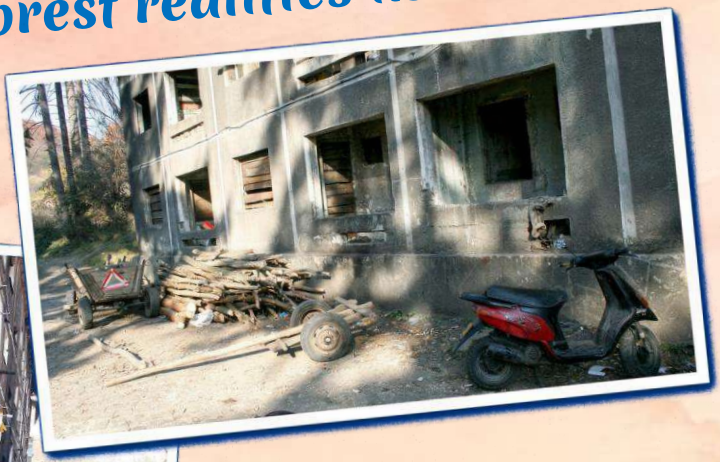

Every child
is an investment in tomorrow

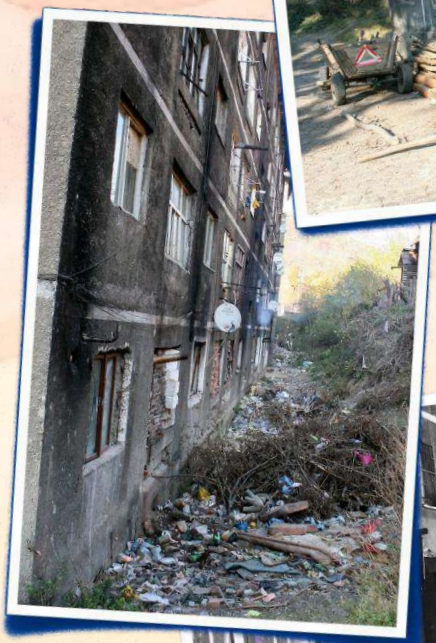

Every child
is everyone's responsibility

operating in one
of the poorest realities in Romania

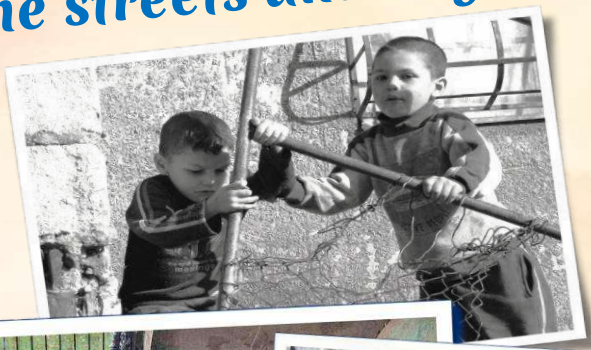

is not easy

giving an education and ethics
to children accustomed
to the streets and degradation

is not easy

yet ...

in an old building, restored by us

we manage to change many things

for more than 50 children

an effective after-school program and useful school support

we care about nutrition

but also about spiritual growth

a little tv is useful

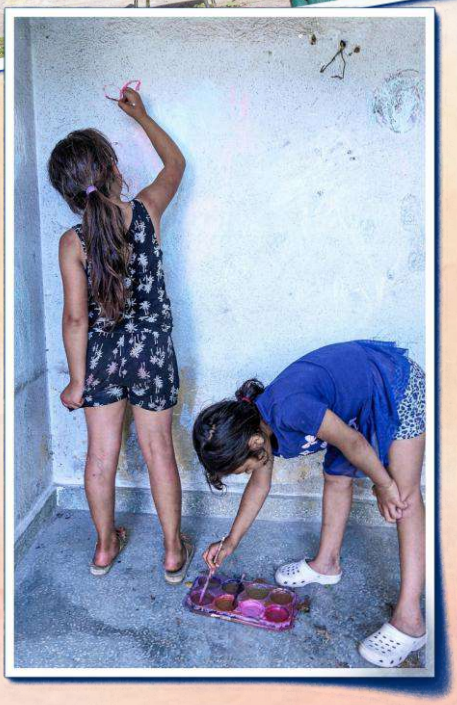

but then we create our own art with murals

a blast of life at the pizzeria

but afterwards always balanced meals

hugs and songs bring us together

sports and physical activity make us stronger

diy and drawing nurture the imagination

a wonderful trip enriches knowledge

every birthday is celebrated

the trampoline
is a huge hit

and music
touches
the heart

hygiene and pediatric care

and let us not forget environmental care

we help
many families

we visit the elderly in care homes together with the children

we offer jobs in the village

and all of this....

through the entirely voluntary work of the founders

and with the crucial support
